

# U.S. Officials Reject Russ Move To Check Berlin Airline

By RICHARD KASISCHKE  
Berlin, Sept. 10 (AP)—American officials rejected curtly today a Russian attempt to restrict the air lift supplying blockaded Berlin.

The Russian move came half a day after bloody street fighting in the tense city in which anti-Communist Germans ripped down the Red flag from the Brandenburg gate and Russian and Soviet-controlled police fired into demonstrators, killing at least one. The Russians raised the hammer and sickle flag today over the gate.

The Russians sent a formal note to the four-power Berlin air safety center demanding from the U. S. detailed prior notice on every flight made to Berlin. They asserted the data is needed "in the interests of safety."

**Incidents Mounting**

An American Air Force official said the safety rules are adequate and the real intent of the Russians was "obviously another one of their efforts to get control of our flights into Berlin." The Americans have been flying upwards of 400 planes a day into the city with food, coal and other supplies, since Russia blocked the land approaches 79 days ago.

Allied sources voiced open concern that mounting incidents between Communist and anti-Communist Germans might pile up to a point where four-power negotiations now being held on the Berlin stalemate might break down completely.

Last night's street fighting between Berlin civilians and Russian troops, supported by Soviet zone German police, cost the life of one German youth and injuries to at least 22 other Germans, police reports said.

The clashes occurred near the historic Brandenburg gate, which marks the division of Berlin into East and West, after 200,000 Germans had demonstrated in a near-by square against the Communist drive for power over the city.

Crowds hurled rocks at three Russian-controlled police.

Russian military police and their German colleagues fired into the throngs of anti-Communist demonstrators.

## TEETER DENIES BOROUGH PAYS \$75 SERVICES

John D. Teeter, president of the John S. Teeter & Sons, Inc., today denied that the borough of Gettysburg was paying his firm \$75 per day for an air compressor and other equipment and a man for blasting on borough work.

Mr. Teeter's denial referred to the statement made by Leroy Winebrenner at a Council meeting Tuesday evening and published in an account of the council meeting's proceedings in The Times Wednesday.

Mr. Teeter's statement of denial follows:

"The statement in Wednesday's edition of The Gettysburg Times, credited to Leroy Winebrenner, borough engineer, that the borough was paying the John S. Teeter and Sons, Inc., \$75 per day for an air compressor is erroneous. We have never been paid \$75 per day for use of a compressor.

**Need Insurance Coverage**

"The present work we are doing is with a 105 cubic feet air compressor, at \$18 per 8-hour day, plus the charges for man, fuel, oil and maintenance of \$20 for an 8-hour day, a total of \$38 per day. Use of a jack hammer, which the borough does not have, is \$5 per day additional, an overall total of \$43.

"If the work requires detachable bits an additional charge of fifty cents per bit is made. Dynamite and explosives, of course, are extra.

"The reason we were employed on this work is because the borough does not carry blasting insurance and our insurance covers this as well as property, public liability and pedestrian damage.

"The minimum charge we make for insurance coverage is \$10 regardless of whether the contract requires one day, or a week. Under the present working arrangement this charge to the borough would cover two or more weeks of work."

John had flown more than enough missions in the European theater to be returned to this country, but refused to be sent home. His wish was to be sent to the South Pacific, where his brother had been killed.

## Moose Donate \$3,000 Toward New Ambulance; Give Another \$100 For 24-Hr. Service Fund

The Gettysburg Moose lodge Sunday afternoon at 3 o'clock will formally present to the board of directors of the Warner hospital two checks, one for \$3,000 and the other for \$100.

The larger amount is being donated to help defray the cost of the new ambulance purchased by the hospital. The \$100 is being given to start a campaign in which it is hoped that sufficient money can be raised annually to provide free 24-hour-a-day ambulance service.

Hospital authorities estimated that approximately \$2,500 will be needed each year if the plan to provide 24-hour-a-day service can be carried out. Under the proposed plan orderlies at the hospital would drive the ambulance between the hours of 7 a. m. and 5 p. m. each day. In addition one or more drivers would be secured for night duty, with one to be at the hospital at all times during the night hours. In that way an ambulance driver would be present at any time of the day and night to drive the vehicle wherever it might be needed as soon as the call for

the ambulance is received.

Daniel P. Miller, governor of the Moose lodge, is scheduled to present the checks to President C. A. Bixler of the Hospital board, at the service to be held at the hospital Sunday afternoon.

Other officers of the Moose scheduled to be present include: Junior Past Governor Merle L. Baumgardner; Senior Past Governor L. U. Collins; Junior Governor Clifford Harman; Prelate Michael Tate; Treasurer Ralph Johnson; Trustees Charles Utz, H. L. Bender and Donald McSherry and Secretary Charles L. Lauer. Nurses, members of the board of directors and doctors are expected to represent the hospital.

Under the proposed plan of 24-hour service efforts are to be made to interest organizations and individuals throughout the county in guaranteeing certain amounts each year. If sufficient donors can be secured a depreciation fund will also be set up setting aside a certain amount each year so that when the present ambulance is worn out funds will be available for a new one.

## Two Brothers, Air Corps Majors, Inseparable In Life, Are Buried In Adjoining Heroes' Graves Here

Two Pittsburgh brothers who were almost inseparable in life, came to Gettysburg today to repose in adjoining heroes' graves in the Gettysburg National Cemetery, almost within a stone's throw of the spot where their father trained at Camp Colt in 1918 with the tank corps in World War I. Their bodies were brought back from overseas graves and re-interred at 1:30 o'clock this afternoon.

The brothers, killed in action on opposite sides of the earth in World War II but united again in death, were Major Richard Mather Marshall, Jr., and Major John Ashby Marshall, sons of Mr. and Mrs. Richard M. Marshall, Schenley apartments, Pittsburgh. Their father is president of the Pittsburgh Coke and Chemical company of that city.

## Had Same Birthdays

Both brothers had the same birthdays, two years apart, on October 24, and both were 25 years old when they met death in action.

## Old Diploma From Gettysburg College Branch Displayed Here

A 99-year-old diploma was displayed at Gettysburg college Thursday morning by the great-grandson of the man who received it.

The diploma was granted from the Medical College of Pennsylvania, a branch of Gettysburg college, to Jesse E. Wofford who later became an outstanding doctor in Mississippi.

The great-grandson, Jesse E. Wofford, IV, a student at Jefferson Medical college, became inquisitive about the whereabouts of the school that granted the degree, and decided to come to Gettysburg to find out if his great-grandfather was granted a degree here.

The Medical College Branch Upon investigation, it was discovered that he graduated from a

branch of Gettysburg college in Philadelphia. As was the custom of the time, Gettysburg had a branch medical school which was the Medical College of Philadelphia. This was an outgrowth of Jefferson and was founded by the same man, Dr. George McClellan, father of Gen. George B. McClellan of Civil War fame.

The diploma was presented in 1849 and was signed by Morris Patterson, Esq., president of the Board of Trustees.

The Medical College of Pennsylvania was closed in 1861 after being in existence for 22 years.

Young Wofford is now living in Drew, Miss., the same place his great-grandfather gained medical fame.

## BULLETINS

Manila, Sept. 10 (AP)—Deadly gases again tonight poured from erupting Hibokhibok volcano on Camiguin island as about 13,000 Filipinos huddled in two southeastern trenches awaiting rescue by ship. The Philippine Coast Guard cutter Anemone messaged briefly that all towns on the tiny southern island were deserted except Sagay and Mahinog on the southern end. Both, the cutter said, were jammed with refugees threatened by chlorine gas emitted by the volcano in its tenth consecutive day.

Grafenwoehr, Germany, Sept. 10 (AP)—There is ample evidence today that American forces now in Germany would be whipped by a strong thrust from the east. This was made plain when the U. S. First Infantry Division was slammed groggily by "attacking forces" after only two

## WM. N. McNAIR, COLLEGE GRAD, DIES SUDDENLY

William N. McNair, former mayor of Pittsburgh and graduate of Gettysburg college in the class of 1900, died suddenly Thursday of a heart attack in a St. Louis railroad station.

The 67-year-old single tax advocate died of a heart attack shortly after he had placed his wife on a train bound for Houston, Texas.

Characteristically, he was in St. Louis to attend a meeting of the Henry George School of Social Science. Henry George and his philosophy of single tax had motivated and guided McNair throughout his strange political life.

## Quixotic Program

Born in Middletown, Pa., October 5, 1880, McNair reached the climax of an eccentric career in politics when he was swept into office as Pittsburgh mayor on the Democratic ticket of 1933.

He came into office virtually an unknown who had been miraculously elected a Democratic mayor in a Republican stronghold. But he left his office noted about the nation for his witticisms, his eccentricities, his bold and open criticisms of even the president of the United States.

From his first minute as mayor, he launched upon a quixotic program of reform that eventually resulted in his resignation under fire three years later on October 7, 1933.

## Often Visited Here

The Pittsburgh mayorality was his only elective job. Recently he announced his candidacy for president of the United States.

He is survived by his wife and two daughters.

A sister, Mrs. Ruth McNair Force, died several days ago in California. Ex-Mayor McNair had visited the Gettysburg college campus many times since his graduation and was a member of the Phi Gamma Delta fraternity here. He was also a leader in Lutheran church circles, having served for several years as president of the Luther League of Pennsylvania.

## To Hold Inquest

St. Louis, Sept. 10 (AP)—An inquest will be conducted Saturday morning in the death of William N. McNair, 68, former mayor of Pittsburgh, who collapsed and died in the union station last night.

A dinner audience was waiting to hear him, and he had just put his wife on a train for Houston, Texas. Her train was 90 miles away when she got the news, and after waiting two hours at Bismarck, Mo., she came back on another train.

Apparently it was a heart attack that killed the veteran Pennsylvania Democrat. He had made a luncheon talk, and had not been ill.

Mrs. McNair is flying to Pittsburgh this afternoon, after joining a daughter, Mrs. Robert Morrison, who is flying from Houston.

Burial will be in Pittsburgh, but the time has not been set.

## COUNTY WEDS ON SATURDAY

Donald R. Miller, of Gettysburg, will be best man and ushers will be Melvin Dunn, brother of the bride-elect, and Dale Reinecker, brother of the bridegroom-elect.

## LAUDS COUNTY FOR PROGRESS IN EDUCATION

Labeling Adams county as a pioneer in educational reorganization work, Roy Cleaver, an official of the state Department of Public Instruction, Thursday afternoon at the South Mountain fair declared:

"No county has done more and few have done as much to advance current educational trends as has Adams county."

He predicted that the results in this county will be a broader curriculum, a closer tie-up between grade and high schools and a better managed school system.

## Adams In Forefront

Mr. Cleaver, speaking in the new Memorial auditorium on the fair grounds as a feature of the School Day program, declared the people of the county should be grateful to local school officials for the great strides that have been made. "Local school boards, the county board, the county office and interested patrons are responsible for your county's progress," he declared.

"Your county is in the forefront in the state in the reorganization of your schools," Mr. Cleaver asserted. "Your leaders who have had the vision, the courage and the leadership to initiate these steps may look with satisfaction toward a future in which the boys and girls of the county will reap the harvest through better educational preparation for life."

The state official, who is an advisor on transportation and consolidation in the state education department, pointed out that only a few years ago this county had 34 separate school units as compared with the present 10—seven joint school systems and three independent districts.

## Gordon Presides

Mr. Cleaver was introduced to the audience by County Superintendent of Schools J. Floyd Slaybaugh who had been presented by Arthur M. Gordon, Biglerville, president of the county branch of the Pennsylvania State Education Association. Mr. Gordon was the presiding officer for the afternoon.

The program opened with music and entertainment by Tony Marino and his orchestra. There was a demonstration of magic by Ray Mond, the magician, and then the New Oxford high school band under Director Paul Harner presented

## SAY EXERCISES, NEW DRUG HELP POLIO PATIENTS

Washington, Sept. 10 (P)—Exercise plus use of the drug curare appears to speed recovery from the crippling effects of infantile paralysis, two doctors reported today.

They said the drug was used to relieve pain and tightness so the patient could exercise or stretch damaged muscles and nerves. The drug apparently has no curative effect itself, the two physicians reported. They are Drs. W. D. Paul and O. A. Couch, Jr., of the University of Iowa.

In another paper, Dr. Stafford Osborn of Northwestern University Medical school, Chicago, reported to the American Congress of Physical Medicine that the use of electricity to stimulate paralyzed muscles has brought favorable results.

### Tests Show Results

He said this was true both in patients with newly diagnosed cases of polio as well as patients who had suffered crippling effects for as long as six years.

Yesterday Dr. Julia F. Herrick of the Mayo Foundation, Rochester, Minn., said some "unusual symptoms" have appeared in persons exposed—both in the air and on the ground—to ultrasonic waves set up by jet aircraft.

She said similar ultrasonic waves generated in laboratories "are truly a death ray when sufficient outputs are available." These are sound waves beyond the range of the human ear.

Members of the air surgeon's staff in Washington told a reporter that no symptoms have appeared among jet airmen that cannot be attributed to psychological causes, rather than physical damage. All the symptoms have been temporary, they added.

Dr. Herrick said that in laboratory experiments animal tissue has literally been torn to pieces by ultrasonic waves. Small animals have been killed.

## SEMINARY GRAD, STUDENT MARRY

Several students of the Gettysburg Lutheran Theological seminary attended the wedding in Morgantown, W. Va., Sunday of Miss Margaret Ellen Cook, Spencer, N. C., and Beryl B. Maurer, Morgantown, in St. Johannes Evangelical Lutheran church. Rev. W. Roy Hashinger, pastor, officiated.

Immediately following the ceremony a basket dinner prepared by women of the church was served on the church lawn, and a four-tier wedding cake was cut by the bride and groom.

Following a short wedding trip, Mr. and Mrs. Maurer will reside at 90 Springs avenue. The bride was graduated from the seminary here last May and Mr. Maurer is now a senior at the seminary.

Those from the seminary attending the wedding included: Mr. and Mrs. Victor A. Carlson, Arthur Neal, William Houser, and Rev. James S. C. Liu.

The latter, whose home is in Tsingtao, China, and who was a classmate of the bride and groom, sails for China November 5. He was guest speaker at the Morgantown church Sunday morning. He has been doing special work at the seminary.

## PARTIES SET TO OPEN CAMPAIGNS

Harrisburg, Sept. 10 (P)—Republicans and Democrats got set today for the opening of the 1948 political campaign in Pennsylvania.

Republicans touch off the battle for the commonwealth's 5,000,000 odd votes tomorrow at a meeting of the state committee in Pittsburgh.

A state-wide tour of the two Democratic state-wide candidates, State Treasurer Ramsey S. Black, for auditor general, and State Senator William J. Lane, for state treasurer, will get underway Monday.

The Democratic state committee will meet here Friday, September 24 to adopt a state platform now being written. The Republican Pittsburgh meeting will hear addresses by Gov. James H. Duff, U. S. Senator Edward Martin and others.

Both parties, meantime, are winding up intensive registration campaigns to get all possible eligible voters enrolled for the November 2 election. The deadline is tomorrow. Informal sources speculating that as many as 500,000 new names might be added to the lists bringing the state's total to 5,000,000, which would equal the all-time high of 1940.

### FACES CODE CHARGE

A ten-day notice was sent today by Justice of the Peace John H. Basehore to Wilmer P. Lloyd, Harrisburg, charging him with leaving the scene of an accident. Borough police, who filed the charge, said a car operated by Lloyd struck a station wagon owned by Harold L. Buhman last Sunday and failed to stop.

Soapy water is probably beneficial to plants, says the U. S. Department of Agriculture.

## PLUSH PLANE IS WRECKED

Teterboro, N. J., Sept. 10 (P)—Doris Duke Rubirosa's "flying apartment" is a pile of wreckage in a swamp.

The plush plane, with elaborate upholstery and a complete kitchen, was wrecked yesterday in a crash landing near Teterboro airport. The tobacco heiress was not aboard, and the crewmen were unhurt.

The pilot, Capt. William Cody, said the port engine failed as he came in to land. As he circled the field for a new attempt with the crippled plane, the starboard engine stopped.

The plane crashed in swampy land 1,600 feet south of the airport.

Fred Wehran, manager of the airport, said the plane, valued at \$50,000, was "a complete wreck." He said crash equipment and a helicopter with medical supplies was beside it in one minute after the crash.

The plane, named "La Ganza," set a speed record for private planes between Rio de Janeiro and Buenos Aires last May. It was decorated with the flags of six countries in which it has landed.

In it with Capt. Cody when it crashed were Engineer Jim Connors and Co-pilot Di Osa Lopez, a Brazilian.

## GREEKS KILL SLAV SOLDIERS

Athens, Sept. 10 (P)—The government announced today that 20 Yugoslav soldiers were killed by Greek troops when a Yugoslav force entered Greece with Communist rebels two days ago.

War Minister George Stratos, who last night appealed for international intervention to prevent a general conflagration in the Balkans, previously had put the number of dead Yugoslav soldiers at nine.

Today's war bulletin said three of the 20 were officers. Three others were taken prisoner and interrogated by members of the United Nations Commission on the Balkans.

Stratos charged Albania, Yugoslavia and Bulgaria with repeated border violations and asked action by the U. N. or the Western Allies before an incident touched off general fighting. He said Greece would consider acceptance of an international military force to seal off 500 miles of Greece's border with her three northern neighbors.

## ARCTIC DEFENSE PLANS ADVANCE

Sydney, N. S., Sept. 10 (P)—Cmdr. Donald B. MacMillan, just back from his 27th voyage to the arctic, says "protective measures" are being taken in Greenland to repulse possible foreign attack.

The 73-year-old explorer declared, in a speech last night just after arriving from the north, that the United States "is getting ready in the north." He did not amplify.

Speaking before a local service club, he said he and his crew of 16 aboard the Bowdoin penetrated to within 660 miles of the North Pole and assembled a vast amount of hydrographical data. This, he said, will be used to correct charts.

Information on the polar regions is valuable to the defense of North America, MacMillan declared.

"That's why we go," he said. "That's why we're going back." He said that while the United States has spent more than \$1,000,000 on surveying and exploring the Arctic, Canada has allowed 300 miles of the Labrador coast to be unexplored.

He said more than 1,000 soundings were taken from the Bowdoin during the summer.

## YOUTH MISSING FOR 18 MONTHS

Uniontown, Pa., Sept. 10 (P)—Eighteen months ago, tall blond Edward (Jack) Murdock walked off the campus of a Virginia military school and disappeared.

There has been no word of him since. The Missing Persons Bureau of 48 states, the Federal Bureau of Investigation, and private detectives hired by his parents, Mr. and Mrs. Joseph Murdock, have found no trace.

Today is the 25th wedding anniversary of his parents but they plan no celebration. Instead they will hope and pray—as they have each day of the 18 months—that their son will return to them.

Mrs. Murdock, 43, a former stock company actress, has been made a virtual invalid by the shock. "If we could get some word that he's all right. We'd be so happy," she said. "That's all we ask now—just some word."

The boy was last seen walking around the campus at Fort Union Military academy in Virginia where he was an honor student. When he vanished, the youth was 17. He was five feet, 8½ inches tall, 137 pounds, had greenish gray eyes and light blond wavy hair.

## HOPES DIM ON MANY STRIKES

(By The Associated Press) New efforts were made today to end crippling strikes in the oil, shipping and trucking industries but hopes of early settlement appeared dim.

Meanwhile, more than 115,000 workers, including 50,000 Detroit auto plant employees, remained idle because of work stoppages. The number included 30,000 CIO longshoremen on the Pacific coast; 15,000 CIO refinery workers and some 15,000 AFL truck drivers in New York city and northern New Jersey.

Representatives of six major struck oil companies and the CIO oil workers union resumed negotiations in an attempt to end the week-old strike as the Federal government placed a temporary embargo on shipment of gasoline and other fuels from west coast ports.

The Los Angeles area was the hardest hit in supplies of gasoline but a million gallons was to be sent from Oklahoma.

In New York, leaders of striking Local 807 of the AFL International Brotherhood of Teamsters called a union membership meeting this afternoon to decide whether to reduce their wage demands from 25 cents to 17½ cents an hour.

## BARNEY HURLS 1ST NO-HITTER IN NATIONAL

By JOE REICHLER  
(Associated Press Sports Writer)

The greatest pennant races in major league history were forced to play second fiddle today to a 23-year-old, rosy-cheeked Omaha boy who only a few short months ago was struggling to stay in the big time.

This tall youngster from Nebraska, blond-haired Rex Barney, rapped loudly on the door to pitching greatness last night when he hurled a no-run, no-hit game against the New York Giants. It was the first of the 1948 National league season and the second in the majors.

Barney's superlative pitching enabled the Brooklyn Dodgers to defeat the Giants, 2-0, at the Polo grounds, and advance to within three and a half games of the league-leading Boston Braves.

There wasn't a difficult chance handed by a Dodger fielder. Only six balls were hit to the outfield. Only five were hit solidly, two traveling 400 feet or better, but all were routine outs.

**Only Four Reach Base**  
Only four Giants reached base as Barney faced 29 batters in winning his 13th victory. He fanned four. Five others were out on pop fouls. Two New Yorkers got on via walks and two on Brooklyn errors.

The only other no-run, no-hit game this season was spun by Bob Lemon of the Cleveland Indians who on June 30 blanked the Detroit Tigers 2-0.

Carl Furillo figured in both Brooklyn runs. He singled in the second, raced to third on Pee Wee Reese's double, and scored while Buddy Kerr was throwing out Gil Hodges. Furillo's second single, in the third, drove in Billy Cox. Cox had walked and advanced to second on Bruce Edwards' one-bagger.

Despite their victory, the Dodgers remained in third place as the runner-up Pittsburgh Pirates, behind the five-hit pitching of Elmer Riddle, defeated the Cincinnati Reds, 6-1. The victory boosted the Bucs within three games of the Braves, who were rained out of their game with the Phils in Philadelphia.

Stan Musial broke out of his brief batting slump, collecting four hits in four times at bat to lead the St. Louis Cardinals to a 4-0 victory over the Chicago Cubs. Musial singled twice, doubled, tripled, stole home, drove in two runs and scored the other two.

**Beat Yanks Again**  
The Boston Red Sox increased their first place margin in the American league to three and a half games over the Yankees, defeating the New Yorkers for the second straight time, 9-4. An eight-run third inning iced the game for the Sox.

Ellis Kinder went the route for the Sox, allowing eight hits. It was Boston's ninth straight win, seventh in a row over the Yankees, and 24 out of the last 27 games. Ted Williams, with two hits and three runs batted in, paced the Red Sox nine hit attack.

The third place Cleveland Indians inched within a game of the Yankees by nosing out the Detroit Tigers, 3-2, in 13 innings in a night game in Cleveland. Eddie Robinson singled home Ken Keltner with the deciding run.

St. Louis' Browns took both ends of a double header from Chicago, 5-2 and 4-2, in the only other action in the American league. The Browns came from behind to grab each game, winning the second with a three-run rally in the ninth.

The scheduled night game between the Philadelphia Athletics and Senators in Washington was postponed by rain.

## Sports Roundup

By HUGH FULLERTON, JR.

**New York, Sept. 10 (P)**—Georges Carpentier, a skinny Paris saloon-keeper who is here to help whoop it up for Marcel Cerdan's middle-weight title bout with Tony Zale, hardly looks like a person who'd step into the ring with Jack Dempsey. . . . But he leaves no doubt that he's the same 168-pounder who drew the first million dollar gate with Dempsey at Boyle's thirty acres back in 1921. . . . Georges is an easy guy to interview; he has lots of things to remember in boxing although he's "through with the game" now; he speaks better English than a lot of native-born members of the fight mob, and if words fail, he can tell the story with eloquent gestures. . . . Recalling how hard Dempsey hit him, Carpentier flashed a toothy smile, turned his head sideways and held his hands to his jaw. He only said "ooh!" but obviously he still was feeling the wallop 27 years later. . . . "You hit him a pretty good clip; did you think then you could have won?" Someone asked. . . . "No. It was too near the end of the round. I saw him stagger; his eyes dimmed but he didn't go down. I was just discouraged."

## THREE PLAYOFF GAMES LISTED

Second round games in the semi-finals for the championship of the Adams County Baseball league will be played Saturday afternoon at Littlestown and McSherrystown.

Orrtanna, beaten last week 10-3 at Orrtanna, plays a return game at Littlestown, while McSherrystown, victim of a 12-0 no-hit no-run game a week ago, will be host to Hanover.

Winners of the two three-game series will then clash in another three-game series for the title.

Only one game is listed in the South Penn loop playoffs for Sunday, Conewago VFW already having taken its series with Heidlersburg.

The lone tilt will find Cashtown and Greenmount clashing in the third and deciding game on the Arendtsville diamond.

## GRID SEASONS OPEN TONIGHT FOR HS TEAMS

By LEONARD A. UNGER

**Harrisburg, Sept. 10 (P)**—Make way for the 1948 scholastic football season.

Throughout Pennsylvania, scores of high school grid squads donned the moleskins for campaign openers tonight and tomorrow.

Most of the tilts are exhibition affairs. The remainder await the mid-September week-end before swinging into the regular league or conference schedules.

The official opening this week marks the culmination of three weeks of pre-season workouts. The three-week training period is required under rules of the Pennsylvania Interscholastic athletic association.

On the block for the 1948 school-boy campaign are 11 winning streaks extending from the 1947 season, plus a host of conference titles.

New Kensington, 1946 and 1947 WPIAL Class AA champion, will test a winning skein of 18 games reaching back from the 1946 campaign. It faces Pittsburgh Central Catholic at home tonight in an exhibition tilt.

**Streaks Threatened**

Coach Don Fletcher's Red and Black charges are listed for their first conference game against Johnstown High Sept. 25.

Two other WPIAL titlists—Blairsville of Class A and Masontown of Class B—take on league opponents tonight. Scottsdale and Carmichael are their visiting opponents, respectively.

In the eastern sector, Hanover High puts an 11-game winning streak on the block in an exhibition game with St. Francis Prep, Spring Grove, tonight.

The Nighthawks, Southern Pennsylvania Conference champion last year, tangle with Shippensburg at home Sept. 24 in its first conference game.

Blakely High defends its Eastern Conference championship for the first time at Dickson City tomorrow night. It, too, has an impressive victory record. It extends 13 games back to 1946.

Other unbeaten squads of 1947 which lift the lid on the 1948 season are Tarentum which meets Vandergrift at home and Tyrone which plays host to Bellwood in defense of its 1947 western conference championship.

## Sport Shorts

**Baltimore, Sept. 10 (P)**—Three former collegiate stars have been signed by the Baltimore Bullets, champions of the basketball association of America.

They are Darrel Brown, who played for Humboldt and College of the Pacific; Gene Felmeth, scoring specialist for Wittenberg (P.) college and Howard Sanders, who captained Miami (O.) university's quintet last season.

**Harrisburg, Sept. 10 (P)**—Only nine teams remained in the running today as competition reached a torrid pitch in the All-American Amateur Baseball tournament.

Brooklyn, N. Y., bumped Bessemer, Ala., from the double-elimination tourney yesterday. A young Irish hurler, named E. Monahan, pitched three-hit ball to lead Brooklyn to a 4-2 victory over the southern nine. The loss was Bessemer's second and automatically eliminated the team from further play in the double-elimination tourney.

**New York, Sept. 10 (P)**—Paddy DeMarco of Brooklyn, a rising star in the lightweight class, makes his most important start tonight at Madison Square Garden against Featherweight Champion Willis Pep of Hartford, Conn., in a non-title 10-round.

Winner of 32 fights in 34 starts in a professional career dating back to 1945, De Marco comes up to the pep scrap with a string of 21 straight victories. The most impressive links in that success chain were two decisions over Terry Young, rugged New York veteran.

**Philadelphia, Sept. 10 (P)**—Delegates from 44 states, Hawaii, Canada and Cuba will gather here Monday and Tuesday for the 29th annual meeting of the National Boxing association.

Approximately 130 persons are expected to attend the sessions, which include a dinner at Atlantic City Monday night.

## Interstate League

(By The Associated Press)

Wilmington's Blue Rocks, winners of the Interstate League pennant, and the York White Roses, who finished third, will make another attempt tonight to start their play off series.

Last night's game was rained out along with the contest between the second place Trenton Giants and the fourth place Sunbury Reds.

Trenton and Sunbury got in one game—Wednesday night—with the Reds winning. Wilmington and York also were rained out of their opening contest Wednesday night.

With a new technique, 12,000 cuts an hour can be made in steel tube cutting.

## Over 60,000 To See Eagles-Cards Game

**Philadelphia, Sept. 10 (P)**—It's in the cards that the Philadelphia Eagles have a football game on their hands tonight.

For the champion Chicago Cards of the National Football League will be here to try to pull the tail feathers out of the Eagles in the 11th annual Philadelphia Inquirer Charities, Inc., football game at Municipal stadium.

More than 60,000 fans are expected in the huge stadium when the two rivals resume passing and smashing at each other. The Eagles are out to avenge the setback suffered at the hands of the Chicagoans in last December's NFL championship game at Chicago. And the Cards are just as determined to repeat their 28-21 win.

## SEEKS BERTH AT OKLAHOMA A & M

"Jim" Pitzer, son of Mr. and Mrs. H. Earl Pitzer, Aspers, is seeking a berth on the Oklahoma A. and M. college freshman football team at Stillwater, Okla., where he has enrolled as a student.

Pitzer, 195-pounder who starred at guard and also as a back at Biglerville high school where he graduated last spring, is the shortest man on the 65-man squad. About 20 of the squad are all-state schoolboy stars.

## Eastern League

(By The Associated Press)  
The Scranton Miners were kings of the class A Eastern league today after a torrid three-cornered stretch battle.

The Miners clinched the flag, their second pennant in three years, with a 7-3 victory last night over the Williamsport Tigers.

The second-place Albany Senators stood idle as they were counted out. Their game with the Binghamton Triplets at Albany was rained out.

The third-place Utica Blue Sox, 1947 champions, scored 12-6, over the Chiefs at Hartford and Elmira nipped Wilkes-Barre 2-1 as Manager Packy Rogers stole home in the 10th.

The Eastern league season ends tonight.

## Today's Talk

**BRAVER THAN EXPECTED**  
Nearly everyone meets an emergency with greater courage than was ever suspected. Worries over what may happen eat up more energy and nerve force than is ever realized. Usually, all for naught!

Far better it is that each of us should conserve and save the strength that is allotted to us for the time when actually needed. Readiness is power. Worry is weakness. We are always braver than we know. This is something that we should always remember.

A very small percentage of the things we think will happen, ever do happen. Fear of fear itself is what keeps most people in a state of nervous exhaustion. It burns up that very force which is so essential when the real emergencies of life suddenly appear. But even then one is braver than was expected.

How shall you begin to meet the emergency that you most fear? Simply by having no fear of what may happen, then when it does, face it with all the accumulated courage that you have—and you will have plenty! Trouble and anxiety are things that should never be borrowed. Because they should never be paid back!

There are enough things to meet each day of our lives, without drawing on our mental and physical forces to meet something about which we have no knowledge—things that we imagine may be planted far ahead of us—but which usually prove to be nothing to worry about, or non-existent anyway. Bridges that we worried about crossing, but which were not there to cross when we arrived at the place where we thought they would be!

Just bear in mind that you will be far braver than expected if you live but one day at a time and do the best that you know. And do not try to prey upon the ailments of others. They are often transferable! Enjoy the precious gaieties of life that spring up in so many places, like wild flowers in a wood or swamp. Beauty is everywhere. Suck its honey into your soul while yet there is time. Take brave steps ahead. God's in his heaven, the same today as a million years and more ago. His eye is ever watchful over all!

Tomorrow Mr. Adams will talk on the subject: "Spiritual Lifters."

### SITTER EXPERIENCE

When as "sitter" left am I,  
And I think  
They're asleep, there comes the cry:  
"I want a drink."

When I've settled in my chair  
For a doze,  
Cometh Janie down the stair  
On tip toes.

When I ask the reason why  
Down she comes,  
"A mosquito," she'll reply,  
"Hums and hums."

When to answer every call  
I up I creep,  
Wonder will they ever fall  
Fast asleep?

P. Snyder played the "wedding march."

Mrs. Anna C. Plank, chairman of the garden club, expressed thanks to the exhibitors, both amateur and commercial, and to members of the committee for their efforts in making the show a success.

down 35 per cent. In addition to the  
fresh arrivals, there were approximately  
600 head of common and a few loads of  
average to high-grade around 1,100-  
1,475 pounds, mostly straight grass-  
fed, \$18.50-24, better price 1,350-1,475-  
pound weights. Bulk of the medium to  
low-grade, \$27-\$31.50. A few low-medium  
to \$29.

Heifers in relatively light supply. In  
fact, hardly enough on sale to permit  
an accurate comparison of prices. Child-  
ren of grass-fed heifers, \$20-26. A few good,  
\$27.50-32. Cows also met an uneven  
demand but steady. A few 50-  
cent higher basis. Canners and cutters  
displayed most of the advance. A few  
good young cows, \$19-23. Canners  
and cutters, \$15-17, but some-weight  
cows, \$18.50-19 and only a few ably  
canners below \$14.50.

Bulls met a fairly broad demand and  
cleared on a fairly steady to strong  
price basis. A few good young beef  
bulls reached \$26.50-27, as most of the  
good small steers and common and  
medium, \$20-23; cutters to \$18. Demand  
fairly broad in the steerer and feeder  
division and prices fully steady on all  
grades compared with Monday. Good and  
choice 785-905-pound steerer and feeder  
steers, \$28.75-30. Most of the medium  
and good, \$26.50-27.75. A few loads  
of common to low-medium, \$20-21.

CALVES—Lightweight culs and com-  
mon and medium calves, mostly under  
300 pounds met a narrow  
demand, but other classes met a fairly  
active trade. Prices steady on all  
weights and grades except culs,

## Congressional Spy Probers "Hit Pay Dirt" On Atomic Espionage Plot

### FINDINGS ARE KEPT SECRET; 7-HOUR SESSION

Washington, Sept. 10 (AP)—Congressional spy probers claimed today to have struck pay dirt in their digging into an "atomic espionage" plot.

But they kept the nature of their findings secret as they prepared to open their hearings to the public next Wednesday.

A seven-hour closed door session yesterday brought from Chairman J. Parnell Thomas (R-N.J.) the terse announcement that "this was a very important session" and the House un-American Activities committee made "substantial progress."

**Agreed Not To Talk**  
Thomas said he and Reps. Vail (R-Ill.) and McDowell (R-Pa.), who conducted the session, delved further into the Hiss-Chambers controversy and "a very important espionage case."

They called half a dozen more witnesses for today but would not reveal their identities nor what they were to be questioned about.

"We have agreed not to talk," McDowell told reporters, disclosing a new committee policy.

**Intimidation Reported**  
Another House committee heard yesterday that New York fur workers have been compelled by fear to contribute to Henry A. Wallace's third party and to the support of the Communist newspaper, the Daily Worker.

Morris Goldner of New York, president of the Independent Fur Manufacturers association, told a House Labor subcommittee that the money requests were backed by intimidation.

The committee is investigating reports of Communist influence in the CIO International Fur and Leather Workers union.

**Still Seeking Records**  
Meanwhile, there was no word on what luck Senators are having in trying to work out an agreement with the administration for access to certain government employee records.

Chairman Ferguson (R-Mich.) of an investigating committee that has been looking into the government's loyalty program spent three hours yesterday conferring with Attorney General Clark.

Clark has backed up President Truman's refusal to turn over the records to the committee.

Ferguson had said earlier in the day he thought the disagreement could be ironed out, but neither he nor Clark would discuss the meeting after it ended.

### Farm Animals Die When Barn Burns

Bloomsburg, Pa., Sept. 10 (AP)—At least 10 farm animals were killed, a barn was destroyed by fire and considerable damage done in the town of Espy when a storm hit sections of Columbia, Montour and Northumberland counties last night.

Seven of a herd of 10 cows were killed by lightning on the Remmer farm near Turbotville in Northumberland county. Another cow in a herd of 40 nearby also was killed.

Lightning started a fire which destroyed the barn of Domes Kirkner at Exchange in Montour county. Kirkner also lost a horse, a cow and considerable amount of feed.

High winds uprooted big trees in Espy.

### Intoxicated Pilot Is Fined, Suspended

Camden, N. J., Sept. 10 (AP)—Robert V. Shutter of Cleona, Pa., was fined \$200 and given a six months suspended sentence yesterday after pleading no defense to charges of operating an airplane while under the influence of liquor.

William Cahill, assistant prosecutor of Camden county, told the Common Pleas court Shutter was too intoxicated to land his two seated private plane.

Cahill said John B. Olivo, 19, of Bellmawr, N. J., took over the controls and landed the plane safely although he had no flight experience.

### Rent "Gouging" Charged In Suit

Philadelphia, Sept. 10 (AP)—Wolf Katzen of Elkins Park, Pa., seeks \$5,692.50 in treble damages for alleged rent gouging.

He filed suit in U. S. District court yesterday against the Elkins Court corporation, and David Stotland, its president, and Milton E. Selig, secretary-treasurer of the corporation.

Katzen claims he was compelled to pay the corporation a "bonus" of \$1,762.50 before they leased him a larger apartment last April 1 and \$22.50 a month over the ceiling rent of \$150.

### Question Legality Ambulance Service

Harrisburg, Sept. 9 (AP)—A question of whether the public utility commission can regulate a charitable institution operating an ambulance service went before the commission today for decision.

The question is a complaint by the Hess Brothers Automobile Service, of Harrisburg, against the Harrisburg hospital, which receives state aid.

Donald L. Hess, operator of the Hess service, testified before an examiner yesterday, that the hospital was not authorized to operate as a common carrier in furnishing ambulance service to non-patients and that its charter made no provision for such service.

Walter S. Kohlhaas, superintendent of the hospital, said most of the ambulance runs are for patient service but that some service is provided non-patients. He said the hospital ambulance service for years was the only service of its kind available in the city and that its legality never before has been questioned.

### COLUMBUS MAN INVOKES MUSE TO WRITE WILL

Columbus, O., Sept. 10 (AP)—The will of Walter Malloy, Ohio Bell Telephone company assistant general manager, filed today in probate court carried a poetic lilt combined with some sage advice.

Malloy, who died unexpectedly last Tuesday at 65, made his wife, son, daughter and a niece the principal beneficiaries. The total estate was not listed. Insurance came to \$73,000.

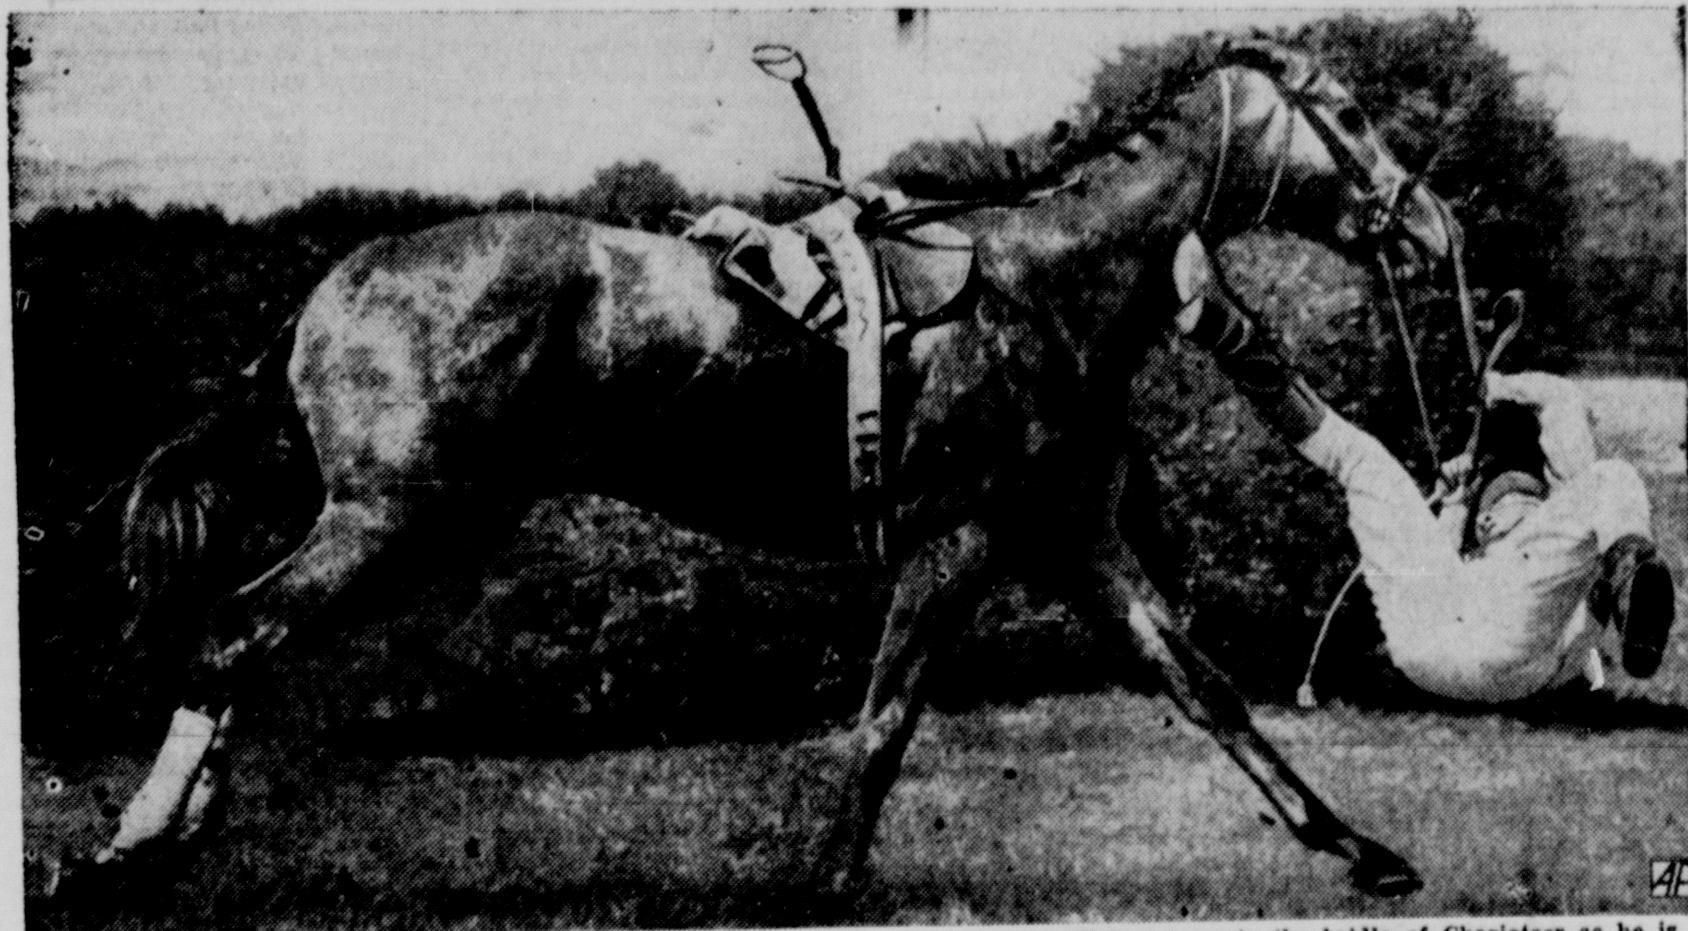

The will, in part:  
Preamble:  
My mind is sound, my heart beats true,

And, realizing what I do,  
I take my trusty pen in hand  
So probate courts throughout the land  
May, after I have passed away  
And faced my God on Judgment Day,  
Know my desires, and see to it  
My will is carried out, to wit:  
The home is in my good wife's name  
And I request it stay the same,  
But she may do as she sees fit,  
'Tis my advice, get rid of it  
And move into a cozy flat  
To cut expense; that settles that.

Should I survive my loving spouse  
Hold title to our land and house  
I will that, when I've run my race,  
My boy and girl shall share the place.

**Cash Becomes Poetical**  
Should either one desire to live  
In the home place, then they must give  
Unto the other, what seems fair,  
To purchase outright their half share.

If I'm possessed of surplus cash,  
A strange thing though it may be,  
I will my wife shall have it all  
For bills or doctor's fee;  
I give her title to all funds  
In savings or in check  
And ask that she pay all the debts  
So I'll be square, by heck!

GOING THEIR SEPARATE WAYS — Jockey Orlan Brown still hangs on to the back of Charioteer as he is tossed from the saddle after clearing the last hurdle in the Hibler Purse hurdle race at New York's Belmont Park.

### Personal Estate

Now any other worldly goods  
That I have laid away,  
Will turn up in the safety box  
And this is what I say:  
My wife shall have the whole estate

As long as she may live  
To spend, to hoard, to dissipate,  
To share, to save, to give,  
But when death's angel beckon's her

What ever may remain  
Shall go unto my children  
In this manner, I'll explain:  
In equal parts to Betty, John,  
Or should they not survive,  
Apportion 'mongst their children  
Who may yet remain alive.

**Message From Heaven**  
Of course there'll be other small trinkets  
That naturally go to my boy,  
There's my watch and my ring, in fact everything  
He can have, that he'd likely enjoy.

I lack a memento for Betty,  
I don't own a thing that she'd crave,  
So I send from above, just a heartfelt of love  
To cherish from now to her grave.

The inventory won't be great  
There isn't much to my estate  
But who's that coming in the gate?  
The life insurance man!

Here comes the cash, oh happy day,  
He'll foot the bills and go his way  
But every month he'll have to pay,  
That life insurance man!  
Lo, many moons those checks will come  
For quite a tidy little sum,  
He's one good friend you must not shun,  
The life insurance man!

**\$20,000 BARN BURNS**  
Easton, Pa., Sept. 10 (AP)—The two-story barn of Mrs. Anna Beck in Nazareth township was destroyed by fire yesterday. Mrs. Beck estimated the damage at \$20,000. Robert Mitsch, the tenant, led three cows to safety and also saved two tractors.

### FRENCH CRISES PERIL DEFENSES OF DEMOCRACY

BY DEWITT MACKENZIE  
(AP Foreign Affairs Analyst)

France's perpetual-motion political crisis is rapidly developing into a dangerously weak spot in the defenses of Western Europe against Communist aggression.

Because of its strategic position and its potential strength (a strength now greatly depleted by political and economic ravages) France is the main buttress of the continental democracies. Yet she is so badly crippled by her continual governmental upheavals that her weakness is a vast encouragement to the Russians to push their offensive.

There is no doubt, for example, that the French situation is in no small degree responsible for the brazen effrontery being displayed by the Reds towards the Western Allies in Berlin. Washington declares the United States won't allow itself to be pushed out of the German capital—and Wes Gallagher, AP chief of bureau in the strife-torn metropolis, reported yesterday:

**Soviet Military Show**  
"Soviet planes prowled the skies of Northern Europe today and Soviet ships cruised in the Baltic off Denmark in the greatest show of Russian strength since the end of the war. There is little doubt in military minds here that the Soviet activity was a carefully planned military show designed to impress Europe with Soviet armed might in view of the east-west crisis in Berlin."

France now seems to be suffering from a delusion which also affects the whole Democratic world. Great nations which work together in perfect unity under gunfire have now slackened in both their internal and international unity, on the

basis that "the war is over."

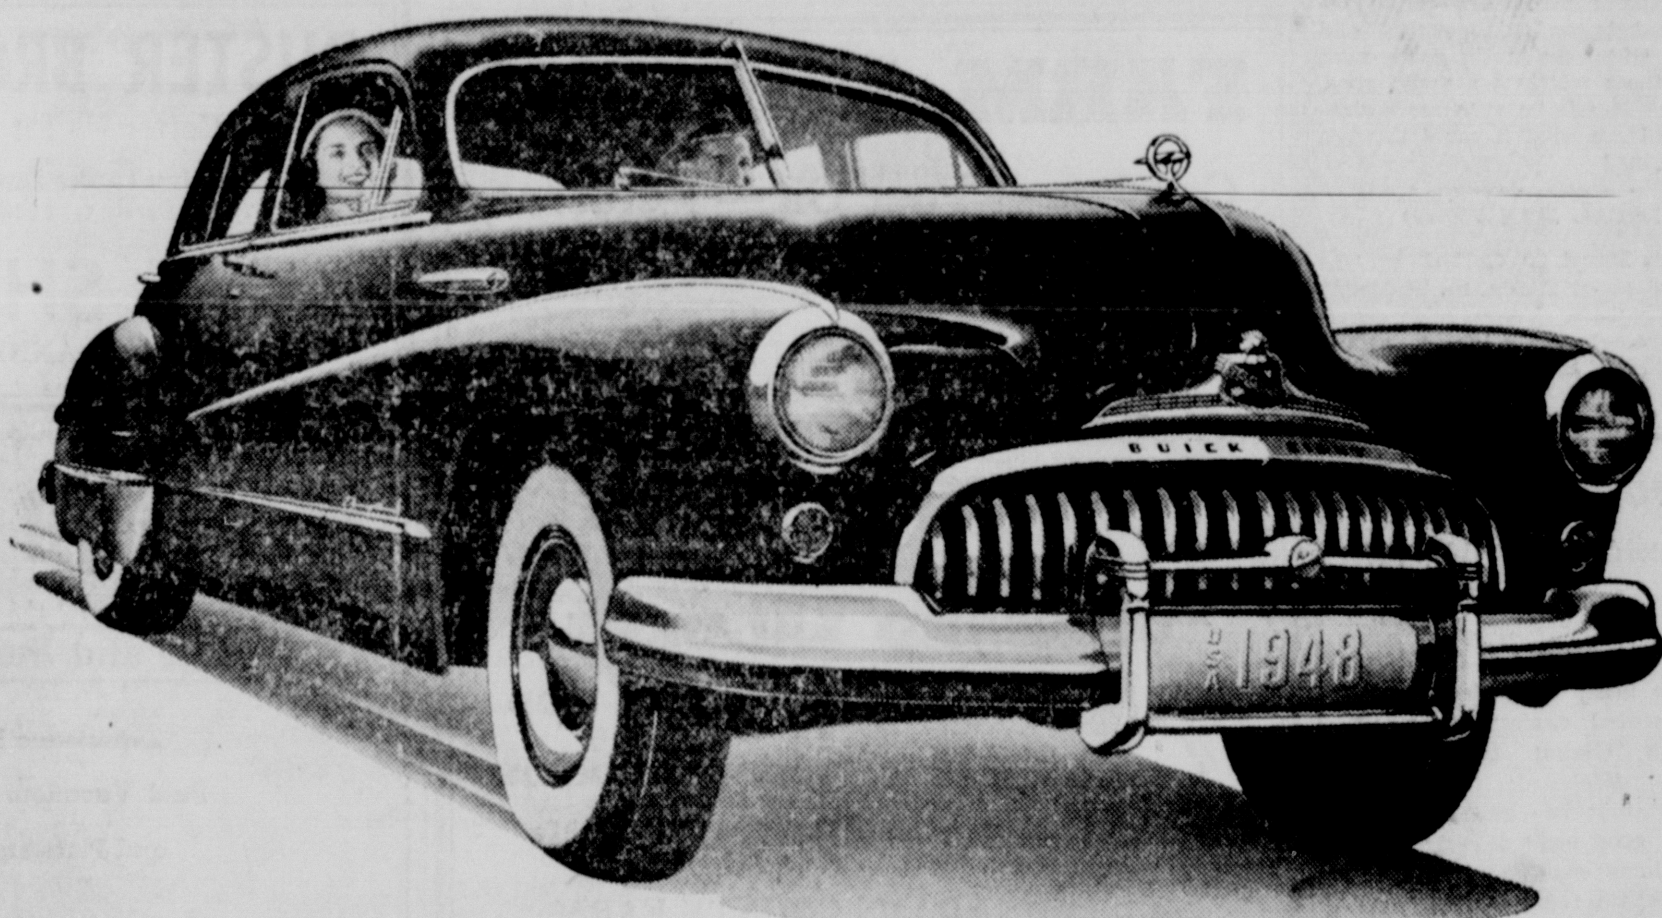

**Was Isn't Over**

Well, the tragic fact is that the war isn't over. Russia knows it isn't over, because she is the one who is waging it. She is making what we euphemistically call "cold war." That is, she achieves her results by bullying and using every ounce of force she dares without letting loose bombs. If she continues to get encouragement to make "cold war,"

and achieves enough successes in that "cold war," there's no telling what turn her final aggression may take.

All of which s by way of leading up to the thesis that now is the time not only for international co-operation among the democracies, but for greater unity within the individual nations.

In time of "shooting wars" national political differences are sub-

## A touch and you GO—that's DYNAFLOW!

Yes, it boils down to just about that. You start your engine, set a lever — and from then on your treadle foot takes over.

You press the accelerator — and move softly and smoothly away.

You speed up, slow down, halt completely — and your right foot alone, operating gas treadle and brake, does it all.

How come? Simply because Dynaflo Drive is the one passenger car drive in America that

gets completely away from gears which function in fixed stages.

Changes in the way oil flows, instead of changes in gears, adjust your engine power to your driving requirements.

Whether you are starting out, climbing a hill, surging past others or cruising easily, there's nothing for you to do except feed gas.

For very fast starts, extreme pulls, reserve braking power, you flick the selector lever—and your engine seems suddenly to double in size.

For parking, there is a very special setting, exclusive to Dynaflo Drive, that rigidly locks rear wheels.

Even rough and chattery roads are made smoother by power that flows along through a cushion of oil — your whole car is "sweeter" in its feel, far silkier in its actions.

Quite rightfully is Dynaflo Drive called the most important development since the self-starter.

It's a basically different way of transmitting power — and one you should know about firsthand.

See what your Buick dealer can do about arranging that for you. The merest sample of Dynaflo magic will make you want to place an order pronto, whether or not you have a car to trade!

**Here's your Buick Dealer's Four-Square Selling Policy**

- 1. NO PRICE PADDING.** You receive an itemized bill of sale. We display all prices in our showroom.

USSR MAY BE OPERATING SPY RING NOW IN US

By JAMES MARLOW  
Washington, Sept. 10 (AP)—What about a Russian spy ring in this country right now?  
Is there one? Maybe. But we don't hear anything about it. So far all the sensations in the un-American activities committee hearings have dealt with the period before and during the war.

All, or nearly all, that has been said at those hearings has been known to the FBI a long time. But not a word has been said anywhere by anyone about what may be going on now.

No Current Facts  
Elizabeth T. Bentley and Whitaker Chambers have been the committee's star witnesses. They're confessed former Communists. Miss Bentley said she was the messenger for a Soviet spy ring that operated in Washington during the war. Chambers said he worked for a pre-war Communist underground that included government employees.

Because they've been out of the Communist party for years, they can't say what may be going on now. With one exception, all the government officials named by either Chambers or Miss Bentley have been out of government service for years. The one exception has been suspended.

The un-American activities committee is going to start public hearings on a new investigation next week. This will deal with "atomic espionage" according to Chairman J. Parnell Thomas, New Jersey Republican.

More Likely Now  
It still—so far as can be learned—doesn't touch on what may be happening now.

When the Canadian government several years ago discovered and broke a Soviet spy ring in Canada, it was a ring doing business then, when the discovery was made.

But a logical question can be asked at this point:

If the Soviets had a spy ring here several years ago—while relations between this country and Russia still were pretty good—now, when those relations are not good, wouldn't Russia be even more anxious to learn what it could through a spy ring?

Poultry Pointers

By FREDERICK BLOCK

Turkeys and chickens are just as susceptible to diseases as human beings. One wonders some times why our feathered pets do not thrive, or why a large number of them die in early age. Turkeys and chickens are often placed on spots where older ones have been before them, and when these birds had a contagious sickness it may be transmitted by their droppings to the young ones. Turkeys can not be raised successfully with chickens.

Vaccination as I described on August 20, does not protect chickens against all kinds of diseases. It is known that sunshine destroys about all known dangerous germs above the ground, but one should not overlook that the sun can not penetrate successfully below the surface. The fowl's habit is scratching, and while eating a worm (the chicken's turkey dinner) it may also catch a bug dangerous enough to transmit a disease. Wild birds are often carriers of trouble and parasites, but they cannot contact confined poultry! A flock of turkeys or chickens does better confined than being allowed to run around; one can easily disinfect poultry houses, and one can control and observe the birds better the confined way.

Laying birds on pasture need less feed, and many owners of small flocks do better economically by keeping their birds outside. Such flocks, however, lay usually less

EXTINGUISHERS ARE HOME NEED

Every home should have at least one good fire extinguisher, preferably more, say fire prevention authorities.

One should be kept in the kitchen, another in the basement, a third in the second-floor hall, and one in the garage. They should be in easy reach of every member of the family, including children, near the entrance and not close to furnace, stove or other potential fire source.

Fire extinguishers must be inspected regularly, kept filled and in good working order, and every member of the family should know how to use them.

Good hand extinguishers include the pump type, a glass bulb which is shown at the base of a fire, and a larger type which, when inverted, sends a stream of liquid at the blaze. Information on the best type for individual conditions can be obtained from fireman or insurance agent.

Reliable extinguishers bear a label from the Underwriters Laboratories of Factory Mutual Laboratories and this label usually tells when to re-charge the extinguisher.

ELECTRIC CIRCUITS

In wiring, the ideal arrangement is to have each room in the house served by two electric circuits so there will be no interruption of service should one become short-circuited.

eggs, and most of the time none. While egg prizes are tops the question arises as to which system fits better for the small flock owner. This ought to be figured out individually.

## MELON PARTY IS GIVEN BY AID SOCIETY

The Rev. Grantas E. Hooper, pastor of the Centenary Methodist church has announced a new plan of procedure for the church services for the balance of the year, the coordination of the Bible reading of the members during the week with his sermons. He will announce a passage of scripture on Sundays that the members are to read during the coming week and the following Sunday his sermon will be based on that assigned passage. The passage assigned for reading this week was Second Timothy, chapter 3. His sermon on Sunday, "Why Open the Bible?" will be based on this passage. For the week beginning on September 12, he will assign Joel, chapter 1, 2 and 3 and on September 19, his theme will be "The Valley of Decision" based on the three chapters from the book of Joel.

The September meeting of the Ladies' Aid Society of St. Luke's church, White Hall, was held on Wednesday evening, in the form of a watermelon party for the members and their families. Mrs. John H. Hartlaub, president, was in charge of this meeting which was held in the social hall. After the singing of "America," Mrs. Calvin M. Sentz, Jr., read the scripture after which Mrs. D. C. Shanbrook offered the evening prayer. This meeting was attended by 54, 31 of whom were members. Mildred and Dorothy Fuss were received into the membership of the society.

A number of stunt games were then played, with the prize being awarded to Mrs. Howard Cook. Watermelon was served to the members and their families.

The next meeting of the society will be held on Wednesday, October 13 in the social hall. This will be in the form of a Halloween social for the members and their families. ## DISAGREEMENT ON COLONIES IS PREDICTED

By JOHN SCALI

Washington, Sept. 10 (AP)—American officials today gloomily predicted a new Big Four disagreement over Italy's war-lost colonies, accompanied by fresh Russian propaganda blasts.

Diplomatic authorities said they see no chance for success when and if the Foreign Ministers Council tackles the issue briefly in Paris next week.

Secretary of State Marshall cleared the way for such a meeting when he told the Soviet embassy late yesterday that the United States is "wholly agreeable" to Russia's surprise suggestion.

But Marshall said Moscow's proposal that the council reconvene today was impossible because of the time element. He offered to have a representative on hand Monday, although he will not arrive in Paris until the following Sunday.

### Three Days For Miracle

Britain and France previously had agreed to the Russian move. If the Kremlin okayes the new date, it will leave the Foreign Ministers Council only three days to work out agreement on a problem that has defied solution for the past year.

Under the Italian peace treaty, the four powers must hand the colonies question over to the United Nations General Assembly if they fail to reach an understanding by September 15. That will be one year from the date the pact with Italy went into effect. The U. N. Assembly will meet in Paris September 21. Marshall will head the American delegation.

Those who predicted that only sharper disagreement will result from the proposed new four-power talks said they are convinced that the only Soviet objective is to gain a forum for additional denunciations of the western powers.

## Wedding

Haverstick-Baker

Miss Rena E. Baker, daughter of Mr. and Mrs. Harry T. Baker, Littlestown, R. I., became the bride of Rufus A. Haverstick, son of Mr. and Mrs. S. J. Haverstick, Lincolnway East, New Oxford, on Friday morning September 3, at 11:45 o'clock at Northampton, Pa. The single ring ceremony of the church was performed by the Rev. Sidney S. Smith, pastor of St. Paul's Reformed church, Northampton and a friend and former pastor of the bride and groom. The couple were unattended.

The bride wore a dark gray shantung suit with black accessories and a corsage of mixed fall flowers. A wedding dinner followed at the parsonage of the Rev. and Mrs. Smith. After a wedding trip of several days spent in Atlantic City, they have gone to housekeeping in their newly furnished apartment at 125 Lumber street, Littlestown.

The groom is a graduate of the New Oxford high school in the class of 1928 and a graduate of Beckley's Business college, Harrisburg in the class of 1930. He is employed by the S. Morgan company, York. The bride is a graduate of Littlestown high school in the class of 1933 and is employed by the Jacobs Brothers Sewing factory, Littlestown.

## O'Malley Awaits Ruling On Bond

Philadelphia, Sept. 10 (AP)—Former Chief Magistrate John J. O'Malley today awaited a court ruling on his plea for reduction of the \$75,000 bond under which he is held on charges of malfeasance and 'misdeemeanor in office.

His attorney, Lemuel B. Schofield, filed a writ of habeas corpus before Judge John A. Mawhinney in miscellaneous court yesterday asking reduction of O'Malley's bail. This writ is returnable today.

O'Malley was accused in two new warrants yesterday of extortion and conspiracy to obtain a bribe for "fixing" a liquor case before a fellow magistrate.

The warrants, drawn by Robert L. Kunzig, assistant to special Deputy Attorney General Laurence H. Eldredge in the state's probe of O'Malley's activities on the bench, were

Springfield, Mass., Sept. 10 (AP)—Eighteen-months-old Lawrence Phillips, Jr., is, according to his mother, the only cigar smoker in the family.

## Steel Helps To Lure Business

Harrisburg, Sept. 10 (AP)—The state now has a new selling point for urging new industries to move into Pennsylvania.

Orus J. Matthews, State Commerce secretary, said a large-scale advertising campaign is planned starting next month to induce industries to locate near Pennsylvania steel mills in view of the new steel pricing system.

Big steel has dropped its old basing-point system of pricing in favor of a new F.O.B. formula as the result of a U. S. Supreme court decision in the cement institute case earlier this year.

Matthews explained that the change simply means that customers now will be liable for freight charges from steel mills instead of paying base prices in which steel makers absorb differences in transportation costs.

"The first reaction has been that it will be helpful to Pennsylvania because we have both steel production and the market," Matthews told a reporter. "But no one knows what will be the effect in 10 or 15 years."

## SPORTSMEN AT WORK ON FARM

Approximately 150 members of the Littlestown Fish and Game association were present on Wednesday evening at the Fish and Game farm in Germany township for the monthly meeting of the association. The members brought their hatchets and saws so that they could continue cleaning the underbrush. Since the last meeting, an outdoor fireplace was built by William H. Renner for wieners roasts and corn bakes and was used for the first time on Wednesday evening. A bridge had been built several weeks ago to permit the passage of autos into the farm. On Wednesday evening, the members began to build a driveway from the bridge toward that portion of the farm on which they hope to erect their building. Following their work, the members enjoyed a corn bake and wieners roast.

Dr. Joseph R. Riden, president, was in charge of the business meeting which followed and Richard Knipple presented the secretary's report. It was decided to hold a shooting match in the near future. A committee consisting of Donald W. Feeser, chairman, Harold Sparver, Charles W. Snyder, Louis Clingan, P. Kemp Hymiller, Richard Knipple and W. E. Sutes was appointed to arrange for this event.

Richard Hamm of Midway, an Adams county game protector, reported on the progress he is making with the cooperative game on the farm project in the vicinity of Littlestown. The aim of this project which was started several years ago, is to get the farmers on adjoining farms to grant permission to hunt on their lands. The state then erects safety zones. He stated that he had just completed signing up 25 additional farms, which means that there are approximately 5,600 acres in the vicinity of Littlestown on which hunting will be permitted this fall. Mr. Hamm also stated that Adams county had recently received 320 pheasants from the Pennsylvania Game Commission, which were raised by Harrison Stipe, on the Lincoln highway, near New Oxford. Eighty-five of these pheasants have been released in this 5,600-acre project in the vicinity of Littlestown.

If the weather permits, there will be a special outdoor meeting near the end of the month to do additional work of clearing the underbrush on the farm. The refreshment committee for the special meeting includes Dr. R. M. Phreaner, chairman; Karl Bankert, Noah Snyder and Clarence J. Krichen, Sr.

All the United States executive departments were set up by Acts of Congress, the oldest being State, War and Treasury, which were established in 1789.
